Subject: ALCMAEON project - update
Attachments: PM4.D - End Users' evaluation questionnaire.docx

Dear all,

I hope this finds you well.

It has been a while since I have been able to update you on the progress of the ALCMAEON project, and I'm writing now just to let you know that the project is now starting to wrap up, and to share links to the range of materials that you might wish to take a look at.

The project has generated a range of resources, particularly a set of lectures with slides and notes, a digital museum, and series of short videos discussing objects of medico-historical interest.

[The main website](#)

[Map of Medical Humanities](#)

[Educational Material](#)

[Digital Museum](#)

[Video Library](#)

Hopefully you will find these interesting, and if you are willing to give us any feedback that would be wonderful. I have attached a feedback questionnaire, and would be very grateful indeed if you could find time in the next week or so to let us know what you think.

If any of you are able and willing to add a link to the ALCMAEON project website from your website, we'd be very grateful. We have a requirement for a minimum number of links, and we just need two more before the end of September!

If anyone has any questions about the project, or the materials, please feel free to get in touch.

Thank you all for your continued interest, and very best wishes,

Jon
