**Subject:** RE: BMS Education Committee Meeting -Wednesday 29th September 2021

Dear all,

Just following up on my message in the SEC meeting this morning, I wanted to give you a bit more information about the project we have been working on to develop digital teaching and learning materials for medical humanities.

The project has generated a large range of open access resources, particularly a set of lectures with slides and notes, a digital museum, and a series of short videos discussing objects of medico-historical interest.

[Digital Museum](#)

[Video Library](#)

If you have any questions about the project, or the materials, please feel free to get in touch.

Best wishes,

Jon
